

## Access

The Château de Losse is situated 5km from Montignac near the route D706 in direction des Eyzies.

## Particularities

- \* It is starred in the Michelin Guide Vert Périgord-Quercy.
- \* It is a visitable castle which has gardens which have been labelled « remarkable garden » in 2004.
- \* It has been classified « historical monument » since 1928 and natural site classified in 1944.
- \* Labeled Tourism and Handicap (auditory and mental).

## historique

The family of Losse originally from Flanders built a stronghold on the bank of the Vézère in the 11th century. Jean II de Losse (1504-1580) is at the origin of a major modification of the building in order to ensure the protection of this one. The castle has remained unchanged since the 16th century.

## Le château

A chatelet defends the courtyard of the castle and the drawbridge of which only traces remain. On the outside, there are ditches, initially filled with water, which were another means of defense.

Three towers surround the building:

- \* The tower of Sainte-marguerite (transformed into a pigeon loft),
- \* The tower of Eperon,
- \* The tower of Nord-Est on the Vézère.

## Visite

The castle is visitable part of the year (6 months), as well as its gardens, many "attractions" (distractions) are planned for the youngest and the visit is accessible in several languages thanks to a translation given at the start of the visit.

The welcome at the castle is warm, and the visit is passionate. You will appreciate the patience of the guide, as well as the quality of the information provided.

It is forbidden to take photos inside the castle.
